# Curriculum Vitae Of

# Isma-eel Langeveldt

## Candidate Overview

Results-driven IT professional with a solid background in both technical support and sales, offering a rare blend of customer-facing experience and technical expertise. Adept at identifying user needs and delivering effective technological solutions across diverse environments.

Proficient in a wide range of development tools and languages including Visual Studio, SQL Server Management Studio (SSMS), Android Studio, Flutter, C#/.NET, PHP, and Java, with practical experience in building and supporting both web and mobile applications.

Strong foundation in back-end development, hardware and software troubleshooting, and customer engagement, enabling effective collaboration between technical teams and end users. Proven ability to manage multiple responsibilities with excellent time management, problem-solving, and communication skills. Known for adaptability, teamwork, and delivering user-friendly solutions that align with business goals.
