Cover Letter for Informatics/ICT Intern (WIL)

Good day, Admin/Hiring Team/Recruiting Team,

I am a final-year Informatics student at Tshwane University of Technology, currently seeking a Work-Integrated Learning (WIL) opportunity. I am writing to express my interest in an intern position at your organization which will not only help to complete my practical experience but also sharpen my knowledge and improve my technical skills.

Although my qualification is rooted in Informatics, my academic experience has provided me with strong exposure to process-oriented thinking, business analysis, system analysis, system testing, data analytics, and structured problem-solving, which are highly relevant to quality management and operations environments. I have developed an interest in process improvement, product engineering, compliance, and ensuring that organisational standards are consistently met and enhanced.

I meet the requirement of being a Diploma student and confirm that I have not previously participated in any internship programme, making me eligible for this opportunity. I am eager to gain my first formal industry experience in a quality-focused role where I can learn and contribute meaningfully.

Through my studies and projects, I have built a disciplined and detail-oriented approach to work. My involvement in final-year (3rd) projects such as Kota Roadhouse and InternFlow has strengthened my understanding of structured workflows, documentation, and the importance of designing efficient and reliable processes. I am particularly interested in how quality management frameworks support organisational performance, reduce errors, and improve service delivery.

In addition, I have completed multiple certifications through IBM, LinkedIn Learning, Microsoft Learn, Fortinet and Huawei, as well as a Cybersecurity Awareness Certificate of Mastery from the Electoral Commission of South Africa. These experiences have enhanced my analytical thinking, attention to detail, and awareness of Standards, best practices and qualities that are essential in quality management roles.

I am motivated, adaptable, and eager to learn within a professional environment that values continuous improvement and excellence. I am confident that this opportunity at your organization will allow me to develop practical skills in quality management while contributing positively to your organisation.

Thank you for considering my application. I look forward to the opportunity to grow and contribute as part of your team.

Warm Regards,

Tumelo Jack Dibate

Final-Year Informatics Student

OBJECTIVE

I am a (WIL-Ready) final-year Informatics student at Tshwane University of Technology with a strong foundation in process-oriented thinking, data management, and systems development. Demonstrates a keen interest in quality management, process improvement, and operational efficiency. My career aspiration is to become a versatile IT professional who bridges the gap between technology and business. I aim to apply my skills in cybersecurity, data analytics, business analysis, system analysis, and software testing to solve real-world business challenges. Through continuous learning and practical experience, I want to contribute to building secure, efficient, and user-centered systems while growing into a role where I can influence strategic decisions and drive innovation. I'm detail-oriented, adaptable, and eager to gain practical experience through WIL, with the goal of contributing to quality management, compliance, and continuous improvement initiatives within a professional environment.

PERSONAL DETAILS

Date of Birth : 06/09/1997
Marital Status : Single
Nationality : Republic of South Africa
Gender : Male
Driving Licence : N/A
Place : Johannesburg, South Africa

SKILLS

Effective Communications
Problem-Solving Techniques
Organizational Skills
Multiple-languages in Programming (Java, Javascript, HTML & CSS, Python, MySQL)
Software Testing Skills
Attention To Detail
Process Improvement
Data Management
Business Acumen

INTERESTS

Coding
Reading and Researching
Traveling
Adventure

COMPETENCIES

- Fundamental knowledge of: SQL (writing basic queries, joins, filtering)
- Relational database concepts (tables, indexes, constraints, transactions)
- Basic understanding of data security and privacy principles
- Strong analytical and critical thinking skills
- Clear written and verbal communication skills
- High attention to detail and an interest in data accuracy and quality
- Curiosity and eagerness to learn, particularly in PostgreSQL and data systems
- Strong problem-solving ability with a focus on identifying root causes of data and system issues
- High level of attention to detail with a commitment to accuracy and data quality
- Accountability and ownership of tasks with consistent follow-through
- Willingness to ask questions and continuously improve understanding
- Effective communication skills with the ability to engage both technical and non-technical stakeholders
- Collaborative team player with strong interpersonal skills
- Customer-focused mindset with an understanding of how data quality impacts user experience

EDUCATION

- 2026 **Tshwane University of Technology**
Diploma in Informatics (Final Year)
70% Average pass mark
- 2015 **Sehlaku Technical High School**
High School
Grade 12 (Bachelor's degree level)

PROJECTS

Business process for health care services

Business analysis (ASIS)

- School-based group project for analyzing a business process (BA). We successfully implemented business processing systems mechanism that will automate and computerize paper standards methods which helps business processes to be more effective, efficient and sustainable.

Client: Healthcare systems

Results: Obtained 88% pass rate

ACTIVITIES

Hackton Activities

Extracurricular Activities Volunteer

Java (SE) Programming: Developed a java application to assist our client who's business uses fragmented systems for inventory management . This are the SMEs situated in our local community and we ensured that they benefit broadly as this initiative covers most of their business needs. This project was done individually.

Client: SMEs

Results: Outstanding Performance

Website Personal Portfolio

Website Design: As part of the practical module(CFA&B115D) we have created our own personal portfolios using HTML, CSS and Javascript. The project was aimed to testing basic knowledge, level of understanding and problem-solving techniques to create interactive websites.

Results: Achieved 90% pass mark.

Lead Management**Developing a Database SQL for a Client**

- A team project formed/unified to developed an effective lead management solution that will improve warehouse operations, track performances and manage data within the business. We created a database that will enable the company to make informed decisions using accurate information in order to organizational objectives.

Client: Warehouses/Retail

Results: Obtained 89% pass mark

Kota Roadhouse System

- Designed and developed a digital platform for a food business using tools such as Python/Java, SQL, and Git. Implemented structured workflows for order management and data handling, improving process consistency and reducing potential errors in operations. Focused on system reliability, user experience, and efficient data flow to support quality service delivery and operational efficiency.

InternFlow (Pty) Ltd Digital Infrastructure

- Developed an internship management system using Python/Java, SQL, and Git to streamline application tracking and data organisation. Enhanced workflow efficiency by introducing structured data processes, improving accuracy, traceability, and visibility of information. Emphasised quality through organised system design, reduced data redundancy, and improved usability for end users.

ADDITIONAL INFORMATION

Recent Participations**Discovery GradHacks
Year: Currently (2026)**

- I am currently participating in a discover gradhack where we develop AI prototypes solutions that will assist our communities improve daily routine such as improving quality life using AI.

Senior Guardian for 1st and 2nd year students**Year: 2022**

- I was elected as part of the house committee member under our Department of Informatics in year 2022. I served 1-year service as a senior guardian during my second year term as an undergraduate. I have managed to help number of students who needed extra help regarding academic, personal experience and other related activities.

IBMZ Datathon**Year: 2024**

- 2024 Datathon competition held by IBM both virtually and at Tshwane University of Technology (Labs). The platform was to expose ICT students across all the university and internationally, including participants from outside African region to drive and come up with IT solutions that will help our communities to solve daily challenges and make an impact to digital world as part of 4IR. As part of our team we came up with the database solution driven by data analytics for health care services.

DEPARTMENT OF INFORMATICS

TO WHOM IT MAY CONCERN

Dear Sir/Madam,

RE: Work Integrated Learning/Industrial exposure

Tshwane University of Technology do uplift the students' standards and skills by means of Industry Exposure in their final academic year of study. This effort is intended to give students an opportunity to be exposed to real work situations and environment. During this period the students who are pursuing a Diploma in the department of Informatics need to be exposed to practical projects and work under the direct supervision of the roles such as Business Analysts, Systems Analysts, Systems Testers, Project managers, and Database administrator to gain practical experience and add value to the organization in which they are placed. The student is currently registered for their theory modules this semester (February to June) and will require a compulsory training for at least twelve (12) months in the company from July 2026 to complete their national diploma qualification.

Students require further training to enhance and sharpen their expertise and knowledge learnt in class. It is with pleasure to note that your involvement with their training would give them a chance to achieve this objective and to add value to your organization. The risks associated with hiring new staff are minimized when employing a person whom is not only known but also tried and proven. Personal development and motivation are enhanced, leading to improved academic performance.

Our coupled efforts will provide access to staff and facilities of a large education institution, and enables employers to become actively involved in the education process. Remuneration arrangements are entirely between the student and the organization. References of organizations that are part of our Industry Exposure Program are available on request.

Overview of AI

Issued by: Huawei
Issued to: Tumelo Dibate
Issued on: 24 May 2024

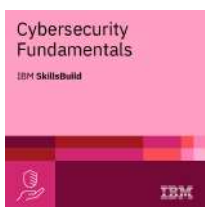

Description: Huawei verifies the earner of this badge successfully completed the Overview of AI course and achieved this student level credential. This course introduces the fundamentals of AI, covering the founding and history of AI, schools of thought, major technical trends, as well as controversies and prospects. This course is engaging and uses vivid real-life examples.

Working in a Digital World: Professional Skills

Issued by: IBM SkillsBuild
Issued to: Tumelo Dibate
Issued on: 14 May 2025

Description: This credential earner understands key skills for professional success and core soft skills needed in the information technology workforce. This includes creating and delivering presentations; using agile approaches for working professionally to deliver quality work and experiences to customers; collaborating effectively with teams; communicating with impact; dealing with challenges in a controlled and focused manner; and solving problems and implementing solutions.

Cybersecurity Fundamentals

Issued by: IBM SkillsBuild
Issued to: Tumelo Dibate
Issued on: 16 May 2025

Description: This credential earner demonstrates a foundational understanding of cybersecurity concepts, objectives, and practices. This includes cyber threat groups, types of attacks, social engineering, case studies, overall security strategies, cryptography, and common approaches that organizations take to prevent, detect, and respond to cyber attacks. This also includes an awareness of the job market. Earners can use this knowledge to pursue further education for a variety of roles in cybersecurity.

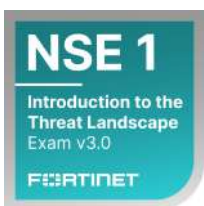

Data Fundamentals
 Issued by: IBM SkillsBuild
 Issued to: Tumelo Dibate
 Issued on: 16 May 2025

Description: This credential earner demonstrates knowledge of data analytics concepts, methodologies and applications of data science, and the tools and programming languages used in the data ecosystem. The individual has a conceptual understanding of how to clean, refine, and visualize data using IBM Watson Studio. The earner is aware of the job outlook in data and is familiar with the skills required for success in various roles in the domain.

Fortinet Certified Fundamentals Cybersecurity
 Issued by: Fortinet
 Issued to: Tumelo Dibate
 Issued on: 24 May 2025
 Expires on: 24 May 2027

Description: The Fortinet Certified Fundamentals in Cybersecurity certification validates that the earner has mastered the technical skills and knowledge that are required for any entry-level job role in cybersecurity. The curriculum covers today's threat landscape and the fundamentals of cybersecurity.

Introduction to the Threat Landscape 3.0
 Issued by: Fortinet
 Issued to: Tumelo Dibate
 Issued on: 24 May 2025

Description: The Introduction to the Threat Landscape 3.0 badge recognizes a fundamental understanding of the cyber threat landscape. The badge earner has demonstrated essential knowledge of the threats that endanger computer networks, the cast of bad actors who are behind cyber threats, and the cyber security principles that can keep users and computer networks safe.

Getting Started in Cybersecurity 3.0
 Issued by: Fortinet
 Issued to: Tumelo Dibate
 Issued on: 24 May 2025

Description: The Getting Started in Cybersecurity 3.0 badge recognizes a basic understanding of cybersecurity. The badge earner has demonstrated knowledge of cybersecurity terminology and concepts, and has a fundamental understanding of key cybersecurity topics, technologies, and products.

[AWS Educate Getting Started with Databases - Training Badge](#)

Issued by: Amazon Web Services Training and Certification

Issued to: Tumelo Dibate

Issued on: 28 September 2025

Description: Earners of this badge have completed the Getting Started with Databases training and achieved the required scores on the post-course assessment. They have demonstrated the ability to set up an Amazon Relational Database instance and how to use SQL commands to read and write to the database.
